105 NEWMAN SPRINGS ROAD
SHREWSBURY, NJ 07702
P: 732-842-0145 ANTHONYSAUTOBODY@COMCAST.NET

Customers' Responsibilities

Anthony's Auto Body works hard to have your auto repairs covered by negotiating with the insurance company for an agreed price to repair your vehicle properly. There are times when the insurance company refuses to pay for repair certain operations that must be done to the vehicle to ensure accurate and safe repairs are being completed to your vehicle.

Anthony's Auto Body aims to build trust with our customers and demonstrate that we operate with integrity. Billing for all services that were not covered by the insurance policy ensures that we are operating within the boundaries of the law and ethical business practices. While at the same time following the OEM repair procedures which are mandatory after the vehicle is involved in a collision.

By billing for services not covered by insurance, we are communicating to the customer that they are responsible for the costs that are not covered by their policy. This helps manage customer expectations and clarifies their financial obligations.

Anthony's Auto Body has transparent pricing. Billing for all services helps maintain transparency in our pricing and billing practices.

In summary, billing for all services that your auto insurance does not cover is crucial for financial compensation, legal and ethical compliance, customer responsibility, and business sustainability.

Thank you,
ANTHONY'S AUTO BODY.
